**California Voter Guide – November 2022**

**How To Vote For, Not Against, Your Values**

**Ratings:** Every candidate – including Judges– is considered after thorough research; we also have a [questionnaire for candidates to complete](#).

Our highest ratings go to candidates who will defend freedom, stand for free enterprise, or have a conservative and/or biblical worldview based on their ability to stand firm against efforts to increase taxes, the size of government, weaken law and order, and crush individual rights and liberty. Here is our rating system:

- \*\*\*\*\*** The best candidate. Our strongest endorsement
- \*\*\*\*** Very good
- \*\*\*** Acceptable
- \*\*** Vote only to prevent worse candidate(s) from winning
- \*** Terrible. Do Not Vote. All your other votes will count

## JUDICIAL RATINGS

Judges sitting on the courts may be incompetent, corrupt, or lazy. Even worse, many are political opportunists with a political agenda.

There are two types of judges: judicial activists and strict constructionists. A judicial activist legislates from the bench. Instead of strictly interpreting the law, these judges make the laws. Instead of applying the law to facts, they rule based on their own values.

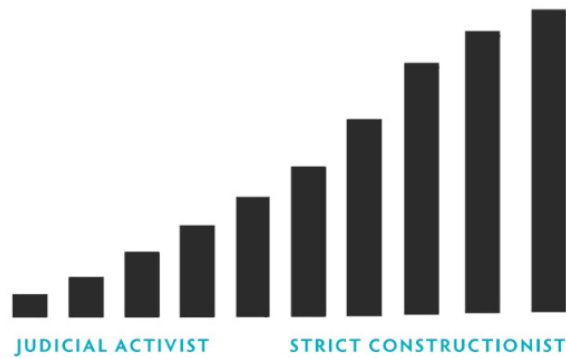

Judicial activists overturn voter-passed initiatives and laws passed by the state legislature because they personally have a different belief system, twist the law to rationalize their decisions, and impose their own moral codes, political beliefs, and secular values in an effort to reshape our society and promote social engineering.

Strict constructionists impartially arrive at a fair judgment based on law.

Judicial activists are usually more liberal; strict constructionists are usually more conservative.
